STANDARD ROSES  
(Tree Roses)

It is generally conceded that our Tree Roses are "unsurpassed". They have stems of uniform height (3½ ft.); are fall budded (not June budded) so heads are a full year old and are pinched several times during the summer to make them symmetrical and compact.

#1 grade: Symmetrical heads on strong canes. Usually from three buds, but may include some from two buds if they have well balanced heads. - - -	Less than 25 @	25 or more @
	\$1.00	.90

Medium grade: From two or three buds with fairly strong canes and heads. Will also include -		
strong canes with light heads, and light canes with strong heads. - -	.85	.75

#2 grade: From two buds or from one if strong enough. Light canes and light heads. - - - - -	.60	.50

To customers in eastern states:

While it is not practical to try to get roses to you in time for fall trade we can give you excellent facilities for spring business. We plan to ship a heated refrigerator car via Chicago and Buffalo to Boston and another via St. Louis and Pittsburgh to Philadelphia. If you are on either line and your order is enough to justify it, the car can be stopped for partial unloading at any point for about \$6.30. Otherwise the goods can go to most convenient cold storage warehouse for reshipment to you when weather will permit. This plan will make transportation costs very reasonable.

Shipments for Gulf States can go direct via New Orleans.
